

Ethics & Values Mind Map

1. What is the ethical issue I want to address?

2. What are my relevant core values?

3. What is my desired outcome that would be feasible?

**4. Does this outcome represent a long-term or short-term solution?
Or both?**

5. What are the barriers preventing this issue from being solved?

6. Who is affected by this change? (Positively or Negatively)

7. What steps must be taken to create my desired outcome?

8. What are the potential unintended consequences of those choices?

9. How might others push back?

10. Create a values-driven statement that communicates the importance of solving the issue.
